

This exploded view diagram illustrates the assembly of a radiator. The main radiator core is shown at the bottom, with various components being attached to its top and side. Callout 1 points to several screws used for fastening. Callout 2 indicates a top cover plate. Callout 3 points to a side cover plate. Callout 4 points to a small rectangular component, likely a fan or sensor, which is mounted to the side of the radiator. Dashed lines indicate the alignment and assembly path for each part.
