

This exploded view diagram illustrates the assembly of a radiator. The main radiator core is shown at the bottom, with various mounting brackets and fasteners indicated by dashed lines and numbered callouts. Callout 1 points to several screws used for mounting. Callout 2 points to a top mounting bracket. Callout 3 points to a side mounting bracket. Callout 4 points to a small rectangular plate. The diagram shows how these components are positioned relative to the radiator core and other parts of the assembly.
